

Steve,
Here is my report:

- Southeast Wyoming, mainly Cheyenne, has expressed concern about the number of licensees needing ethics, and only one class being offered in the area this year.
- The number of complaints seems to have dropped off dramatically, with the ones that do become complaints being resolved prior to a hearing.
- It was my intention to implement a Citation Policy this year, but it will probably not happen.

That is all.
I apologize for the delinquency.
