

Community Involvement Tami Galitz

Make a Wish Wyoming is an incredible organization that does wonderful things for our less fortunate children in all communities all around the state.

It has become a passion of mine in my local community and has been very well received. I have reached out to other local boards and let them know that I am happy to help them if they are interested in hosting a local event (example in Fremont county we host a golf tournament, in 2017 we raised over \$21,000 in just one day.) For every \$7,000 raised a wish is granted in your county.

I have been in contact with Morgan Legerski the Wyoming Make a Wish CEO in regards to doing some sort of fund raiser around or during our State Convention (obviously time is a concern as it is a very busy couple of days, so we are looking at things we can do without taking any time out of the schedule.) I will have a more detailed report in the near future when I have been able to sit down with her in a more detailed manor.

I look forward to informing both our members and our communities of this wonderful organization.

I am also making a goal that every board throughout the state participates in our annual REALTOR ring day December 7th. This is a very simple community project that not only brings awareness to our communities of our REALTOR unity but gives back to our community.

I look forward to helping engage and involve the communities throughout our state.

Sincerely

Tami Galitz
