

My report is as follows;

Active in the support of the GAD during Legislation session. Provided support to the DVP in their selection of SPC's in their District. Enrolled in the Region XI leadership conference in New Mexico. Attempting to keep open communication with DVP's regarding State Legislation activities.

As I read the strategic plan, I believe these items are my area of focus, however, at the direction of the President.

Advocacy and Political Involvement – Monitor and influence legislative and regulatory issues that impact property rights and real estate issues.

A. **Realtor Party** - Participate in Realtor Party programs (NAR committee members.)

B. **RPAC** – Continue growth of Realtor Political Action Committee through member awareness and participation.

C. **Political Action Fund** – Develop a robust political action fund financed by dues.

D. **Consumer Engagement** – Engage the public in their understanding and involvement in real estate issues.

E. **Public Policy Initiative** – Develop a sustainable public policy initiative to maintain lobbying strength (considering personnel succession, political positions, volunteer committees, grassroots member strength, effective calls to action and candidate training, for instance.)
